WALTER Q GUESHAM.

NEW YORK, Dec. 10.—The World says:
Judge Gresham's decision, removing Solon
Humphreys from the receivership of the
Watesh railroad, was received with soclain
by the large and growing anti-Gould party
in Wall street. It was said that Gresham
was the first judge to take a decided stand
against Jay Gould in a case involving a part
of the millionaire's railroad system. Judge
Gresham is the man for whom quite a boon
as a Republican presidential candidate was
started again.

Henry Chess stood in front of a room ful of operators yesterday and made a little pseech, in which he said: "I predict that Judge Gresham will be the next Republican sommer for president. He is a man on whom all factions can unite, and this deviation of the work of the work of the work of the work."
